

SODIMM DDR2

Up to 4GB

Up to 800MHz

Lifetime warranty

DDR2 memory modules are applied mostly in older-generation devices and computers. In order to ensure the highest quality of GOODRAM memory modules, only the selected components are used. Thanks to the multi-level quality control as well as meticulous tests of each produced module, the user receives the products of exceptional reliability and the highest quality.

Module density 1 - 4 GB	Number of DRAM components 8 or 16	ECC support No
Frequency 667 – 800 MHz	Number of module ranks 1 or 2	PIN count 200 PIN
Module data width 64	Number of module sides 1 or 2	Supply voltage 1,8 V
DRAM component organisation 128x8 or 256x8	Timing CL5 or CL6	Registered No
