The UCL memory stick is available in two interfaces: 2.0 and 3.2 gen 1. Its special feature is its unprecedented opening mechanism – a push-button ejectable connector. The casing has a simple, classic shape, but with individual colour printing the UCL memory can become a unique gift.

Whether you choose the white or black version, you'll love the convenience of a plug that keeps your data safe. Trust UCL for all your data storage needs.

All GOODRAM USB flash drives are manufactured on the basis of carefully selected components and undergo multi-stage quality tests before they go out into the world, which is why we guarantee users a lifetime warranty.
