\*If parameters outside this range are required, please contact your sales representative.

UCS is a USB flash drive that resembles a credit card shape, but in a smaller format. The small size of this card provides great versatility – it can be carried in the wallet, with the keys, or even in tight pockets.

The printing area allows to personalize the flash drive and use it for example at the business meetings. The card is also perfect as a company gadget.

All GOODRAM USB flash drives are manufactured on the basis of carefully selected components and undergo multi-stage quality tests before they go out into the world, which is why we guarantee users a lifetime warranty.
