The subtle but very durable UUN2 housing is the perfect solution for those looking for an elegant gadget. UUN2 is a steel, uniform flash drive with a built-in shiny keyloop, which makes it easy to attach it to keys, advertising lanyard or pendant. The additional advantage is the capless design, so users never have to worry about lost parts again.

UUN2 has been awarded in the Gifts of The Year 2014 advertising product contest!

All GOODRAM USB flash drives are manufactured on the basis of carefully selected components and undergo multi-stage quality tests before they go out into the world, which is why we guarantee users a lifetime warranty.
