UVA2 is a slim and durable USB flash drive, enclosed in galvanized aluminum housing with a timeless design. The additional advantage is a compact capless housing with built-in keyloop, which makes it easy to attach it to keys, advertising lanyard or pendant.

The Chip on Board technology makes the memory not only resistant to damage but also waterproof and shock-proof, and the stored data is securely protected, so it can be used as an business gadget.

All GOODRAM USB flash drives are manufactured on the basis of carefully selected components and undergo multi-stage quality tests before they go out into the world, which is why we guarantee users a lifetime warranty.
